What's Unique about The Canyon at Santa Monica?

The Canyon at Santa Monica is a center for recovery and healing. In addition to traditional recovery services, The Canyon provides a supportive environment where patients can drop in to work on life skills and seek support wherever they are in their recovery. Our unique treatment approach engages the whole person in the healing process and encourages loved ones to be involved in treatment in order to build a solid foundation for lasting recovery.

Specialized Programs at The Canyon at Santa Monica

Integrated Treatment	Experienced Staff	Convenient Location	Partnerships and Collaboration
<i>The Canyon staff is fully cross-trained in the principles of treating addiction and addressing co-occurring mental health issues. Our integrated treatment program is evidence-based and proven by research to increase the chances of long-term recovery.</i>	<i>Each patient is matched with a primary therapist with expertise in his or her specific area. Our staff includes master's and doctoral level clinicians and group facilitators. Patients can participate in individual & group therapy sessions and life skills classes integrated with traditional and Eastern 12-Step principles.</i>	<i>Conveniently located between Santa Monica and West LA with easy access from the 10 and 405 freeways, The Canyon at Santa Monica's outpatient program serves those stepping down from high intensity services as well as patients from the community at large.</i>	<i>Some patients have been supported by individual therapists, family therapists, life coaches, interventionists, Employee Assistance Program providers or legal support prior to their admission. The Canyon team will work with the individual to maintain these supportive relationships for successful, lasting recovery.</i>

About Foundations Recovery Network

Foundations Recovery Network is the premier provider of integrated treatment for addiction and co-occurring mental health concerns. Our award-winning model combines evidence-based addiction treatment with innovative therapies for emotional and mental health to address co-occurring disorders effectively. Results demonstrate that FRN patients are more than twice as likely to maintain sobriety one year post-treatment compared to those who attend traditional programs. The Foundations family of treatment facilities includes inpatient centers located in Malibu, Palm Springs and Memphis, as well as outpatient centers located in Palm Springs, Memphis, Santa Monica, Nashville, Atlanta and San Francisco.

Quick Guide to The Canyon at Santa Monica
